

## Introduction

This document will explain how to export favorite links from the Showadenko Microsoft Edge Browser Account to Resonac Microsoft Edge Browser Account.

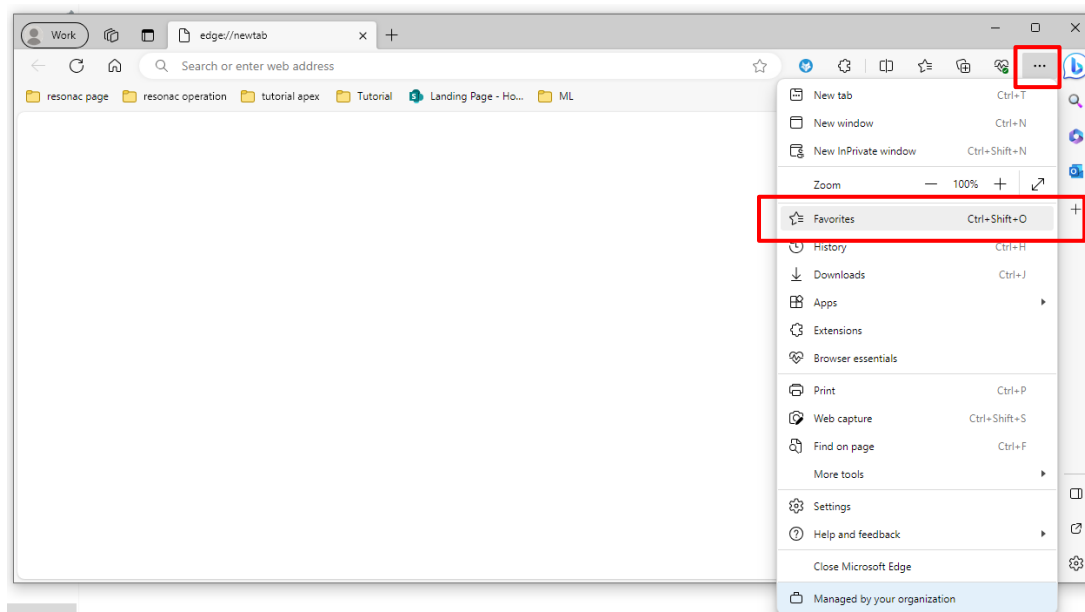

## Step 1

Open *Microsoft Edge Browser* with *Showdenko* account, and make sure the *Showadenko* email account appears in the Browser as attached in the image below:

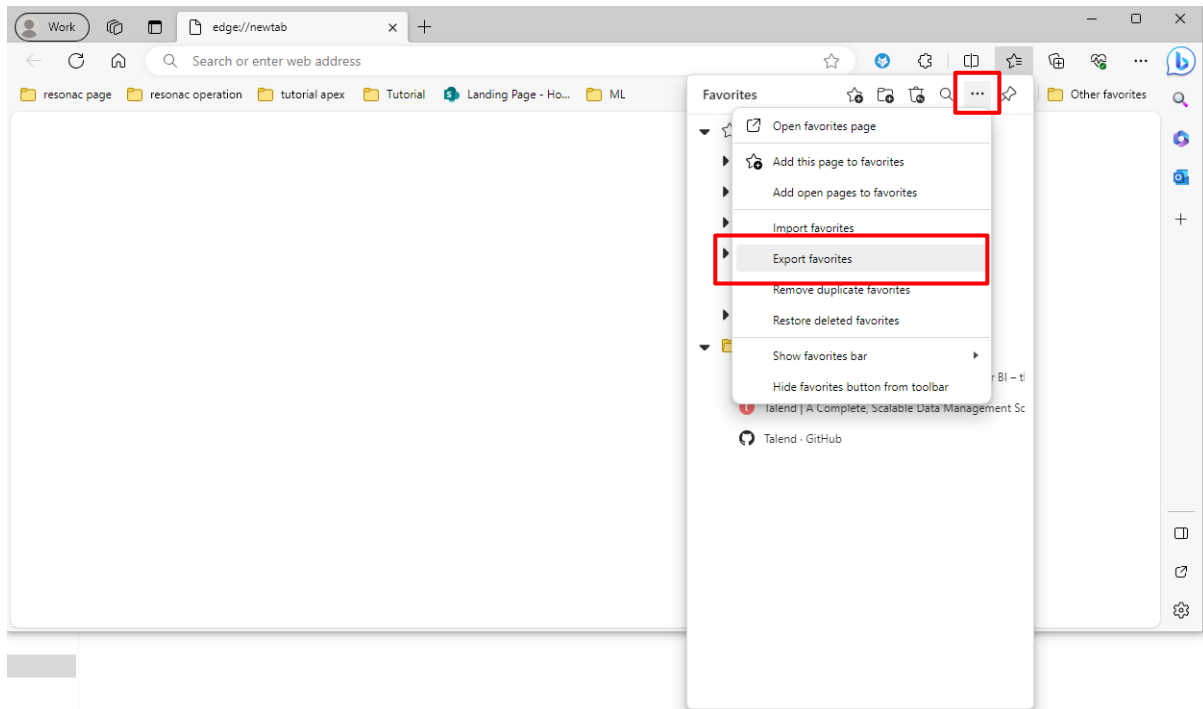

## Step 2

Click **Settings** > **Favorites**.

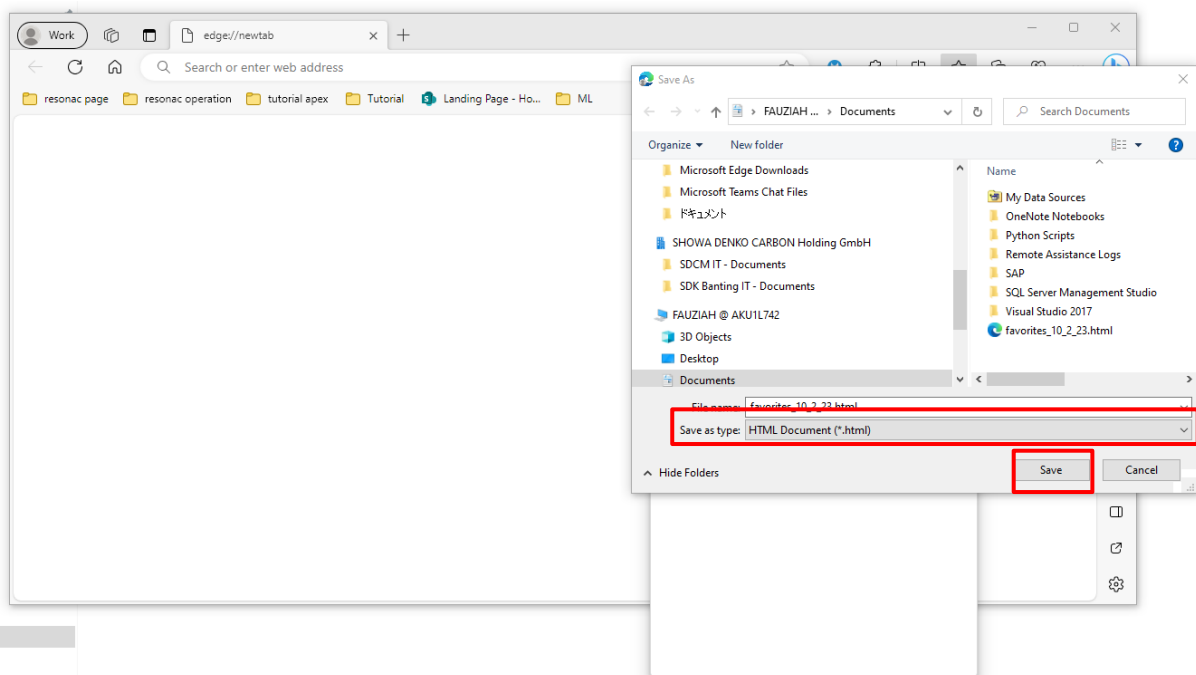

### Step 3

In the *Favorites* section, click **Settings > Export favorites**.

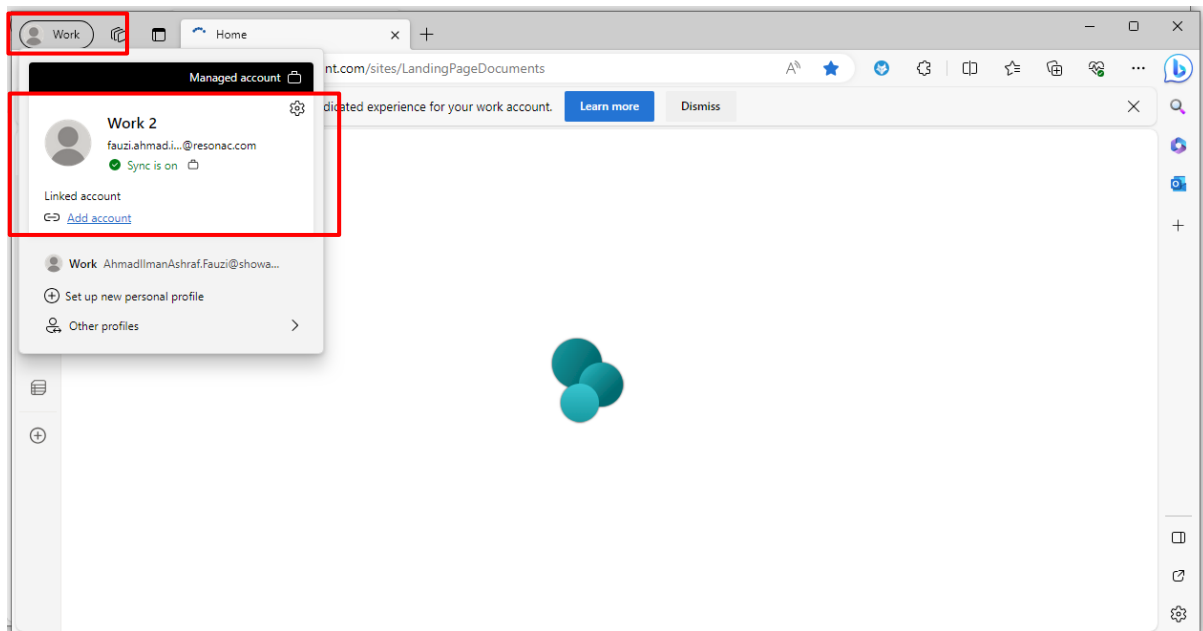

### Step 4

In the *Save As* windows. Choose your desire directory to save the *Link* file. In the *Save as type* option, make sure to save it in the **HTML Document(\*.html)** and click **Save**.

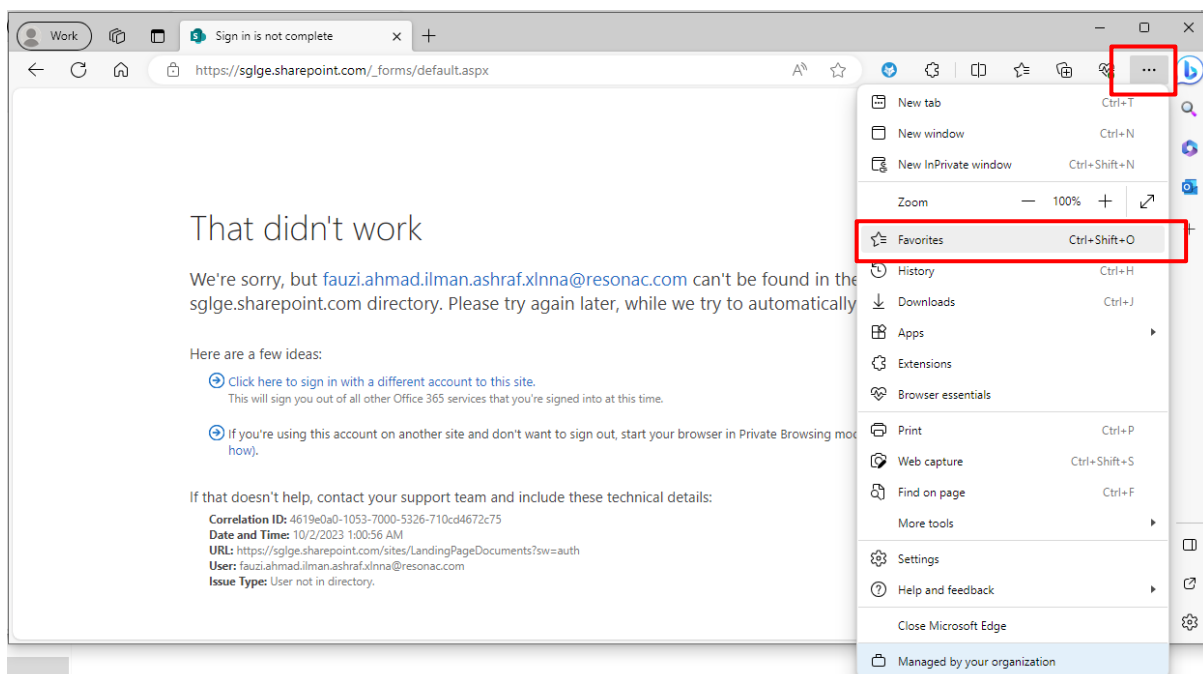

## Step 5

Open another *Microsoft Edge Browser*, and make sure the *Resonac* email account appear in the Browser as attached in the image below:

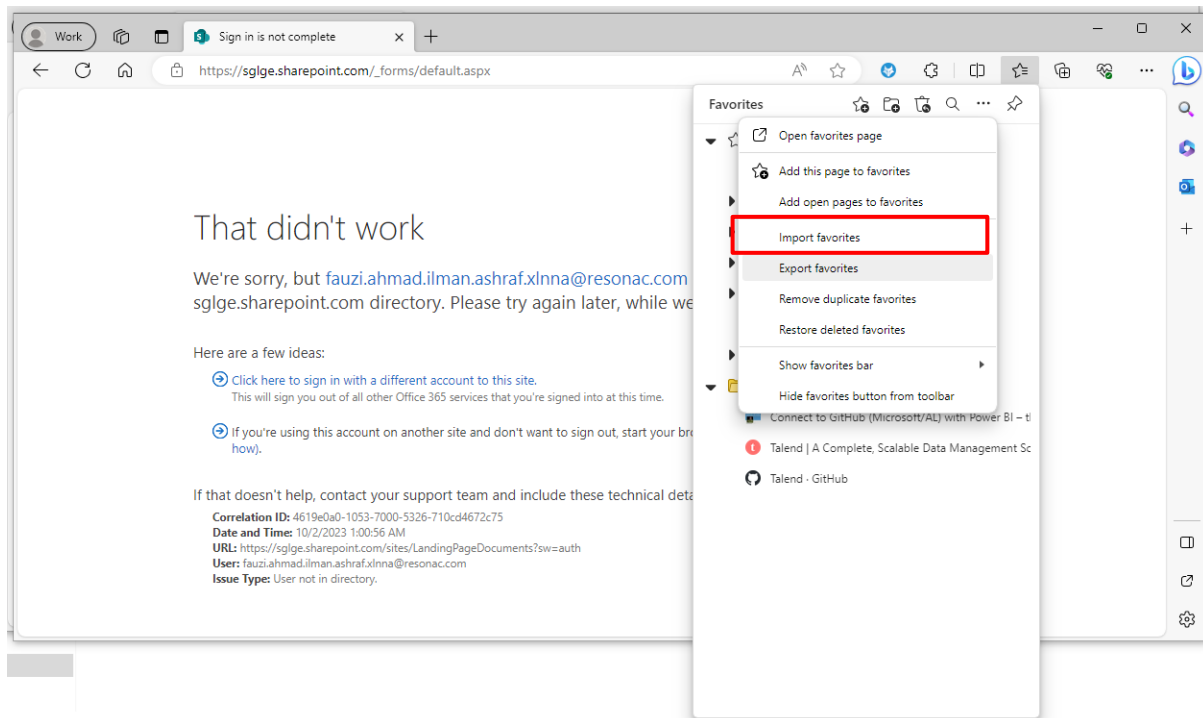

## Step 6

Click **Settings > Favorites**.

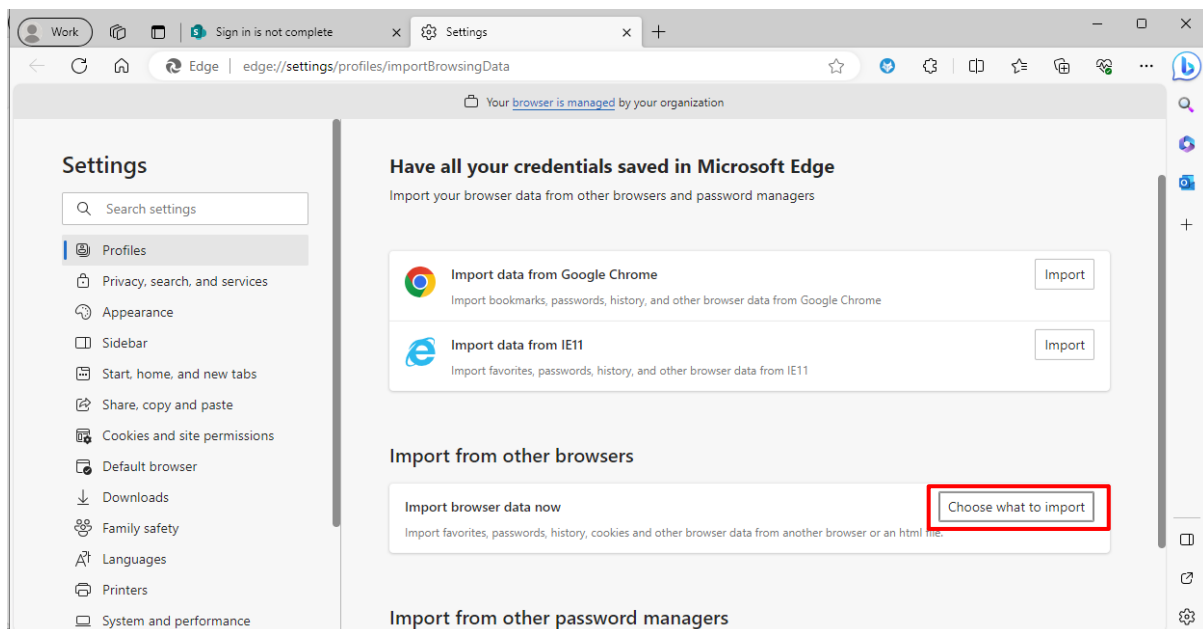

## Step 7

In the Favorites section, click **Settings > Import favorites**.

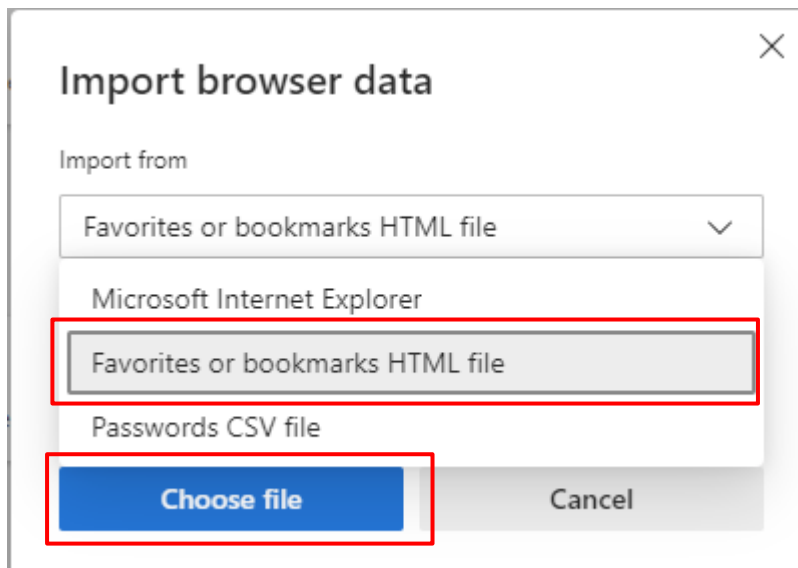

## Step 8

In the *Import from other browser* section. Click **Choose what to import**.

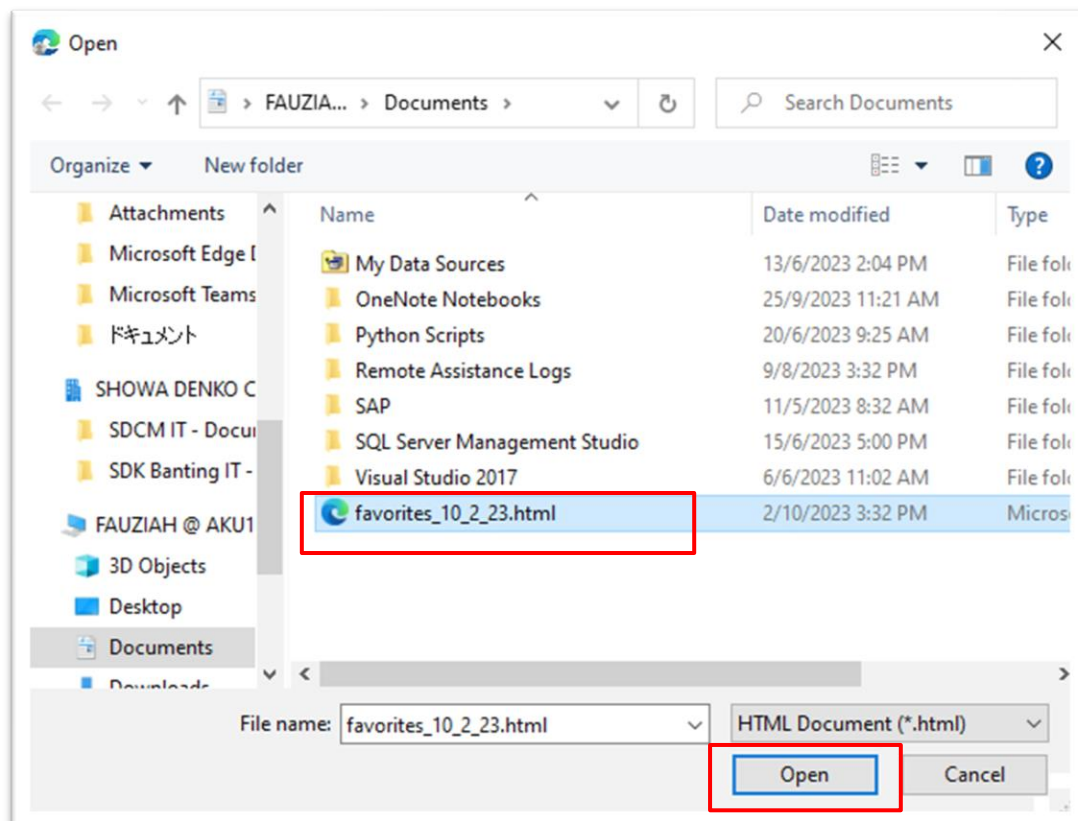

### Step 9

In the *Import browser data* windows. Choose **Favorites or bookmarks HTML file** from the options, and click **Choose file**.

### Step 10

Choose the *Link* file that you already saved during the **Step 4**. Click **Open**.

### **Final Step**

Click **Done**. All your link already imported into the *Resonac* Edge Browser.
